AB304N

Balise LED, base blanche, lentille rouge

General

The AB304N is a general purpose red LED beacon which can be used in various applications. Utilising modern LED components to provide a high level of visual indication and offering longer expected component life.

Greater visibility

The AB304N beacon is fitted with a diffuser for greater visibility and spread of light.

Locking mechanism

The mechanism for locking the beacon to the base is activated by default, but can be disabled if required. A special tool is required to remove the beacon from the base, if the locking mechanism is active.
