SC-11-2201-0001-10

Centrale di rivelazione incendio SmartCell Wireless - 24Vcc - Italia

SmartCell overview

SmartCell has been designed as a complete wireless fire detection system to protect people and property. The system incorporates separate information zones which allow input devices to be configured in multiple configurations, providing maximum flexibility to the user and designer.

A SmartCell system can support up to 64 wireless (Fire or Information devices) with maximum of 32 Fire Detection devices.

Communication between devices and the control panel is bidirectional and operates in the European harmonised 868MHz frequency band.

With significant time saving against conventional and addressable fire system installations, no cables, no mess and no inconvenience to everyday business, SmartCell is perfect for all small to medium sized fire system installations.

Dettagli

- Completamente wireless
- Veloce e semplice da installare
- Dimensioni compatte
- Display OLED 80 caratteri
- Permette l'installazione interna di un modulo di comunicazione opzionale per la connessione ai servizi remoti SmartCell Services
- Disponibile variante con alimentazione 230Vca

SC-11-2201-0001-10

Centrale di rivelazione incendio SmartCell Wireless - 24Vcc - Italia

Specifiche tecniche

General

User interface	16 zone indicators
Maximum system capacity (device count)	1 to 32

Electrical

Power supply type	24 VDC

Zone

Maximum zone capacity	up to 16

Physical

Form factor	Compact
Mounting type	Surface mount

Environmental

Environment	Indoor

Regulatory

Compliancy	CE
Certification	CPR

Wireless signalling

Operating frequency	868 to 870 MHz
Output transmitter power	14 dBm max. / 25 mW
